

READING

- 11 Read about an ancient temple and match each paragraph (1–5) with a headline (a – e).

- 1 In ancient Egypt, temples were either single buildings or complexes of buildings. The most important room was the “cult chamber”. The image of God was placed in the cult chamber.
- 2 There were many activities in the temple, but the most important activity was to worship God. Temples were also used for religious festivals. During the festivals, priests and visitors took part in processions. They carried the image of God in a boat.
- 3 Some scientists believe that temples had the architecture of the Universe. They also showed the creation of the Universe. The columns showed constellations of stars. The main room of the temple with the altar showed the creation of the Universe.
- 4 The temples also had their own business. They employed workers and earned money from agriculture and gold mines. The temples received daily offerings from worshipers.
- 5 The whole life of temples was carefully documented. Many archives of papyri have been found by archeologists. These archives are a collection of documents of the ancient past.

a) Symbol b) Architecture c) Commerce d) Bureaucracy e) Events
